Bounce Back from Betrayal: 5 steps to emotional freedom

Studies show that 95% of the population will suffer some form of betrayal in a lifetime. It is a broken promise or agreement that causes extreme trauma and the devastation of your worldview. Betrayal impacts our lives in a way that shuts us down, leads to mistrust, and builds fear and resentment. In this provocative and vulnerable presentation, Ali teaches audiences how to begin the healing process taking them from a closed and fearful heart to safety and emotional freedom.

Feminine or Powerful: You don't have to choose

We've only had one model of success since we left the kitchen and entered the board room. We've been taught that the masculine way is the only way but Ali teaches that women don't have to choose to be successful or feminine. Today's woman can be both. In this experiential talk Ali helps women to stand soft in their true nature, while still sitting strong in their power. We can have it all!

She has helped me tremendously through deepening my understanding of who I am and how I related to others. Through our partnership I have experienced powerful healing and acceptance. I feel incredibly lucky to have access to Ali's wisdom and insight! ~C. Mendez, TX

I have not ever been to one as truly helpful and inspiring as yours. You made sense, and you did not speak in lofty terms. You spoke and told stories from your heart, your vast experiences, and you connected in a big way. Everyone who was there that I know felt it was so worthwhile and we all got something significant from it, that helped us move through our issues. I started implementing immediately. I made huge breakthroughs and felt more empowered by your presentation than anything I have ever experienced or read. No jive." ~ L. Akin, CEO LO Graphics
